# PROGRAMMING 2021-2027

## Interreg programmes

- Most of the programmes well advanced in preparation of programme
- No possibility for meetings in person and dynamic exchange slowed down the process significantly
- Still no info on funds available

### **Covid 19 impact:**

- PO5 challenge slowed down programming because of
  - no possibility for meetings and exchanges
  - Bottom-up approach for developing of territorial strategies
- No significant impact on territorial analysis or on decision on priorities

Year 2020: Covid + elections throughout the region

# PROGRAMMING 2021-2027

## IPA-IPA Programmes

- Light programming started with online meetings
- Still no instructions from DG NEAR on programming reg. priorities/clusters, no Country Strategy Papers, etc.
- Still no info on funds available
- 26 May 2020 DG NEAR issued the letter for NIPAC on programming focused mainly on main-stream IPA. For CBC:  
'In the case of IPA-IPA Cross-Border Cooperation (CBC) programmes, we invite you to prepare the draft IPA CBC Programmes covering the seven-year period, in cooperation with the EU Delegations and Headquarters as well as relevant CBC structures.'
